#### **Red Casualties** in Korea Are Staggering

The army today said Communist casualties in Korea are now estimated at 1,191,422 from the beginning of the war through June 25 -exactly one year.

This is an increase of 5958 for the five day period ending June

The estimated enemy casualties now include 83,949 battle casualties 1.332 non-battle casualties and 13,949 battle casualties. 14-343 non-battle casualties and 13 130 prisoners

According to the army estimate the Chinese Reds have suffered more battle casualties than the North Koreans. But because the number of North Koreans cap-tured, the North Koreans have suffered more total casualties. The army estimated 481.40 Chi

nese battle casualties and 371.
